Heated Displays

Patriot's heated display merchandisers keeps hot food fresh, moist and delicious for hours. They are constructed of painted black stainless steel with front and rear sliding glass doors for easy filling and cleaning. Each unit comes standard with 3 easily adjustable steel shelves deep enough to give you plenty of space to properly merchandise all of your hot food items. The adjustable thermostat allows the internal humidifying system to keep food hot and fresh for extended periods of time. Interior lighting adds extra brightness and visibility to the items being displayed.

- ★ Double wall stainless steel construction allows outside of unit to remain cool
- ★ Adjustable thermostat allows the internal humidifying system to keep food fresh for extended periods of time
- ★ Front and rear sliding doors allow for easy filling and cleaning
- ★ Easily adjustable shelves
- ★ Attractive sleek design that fits on any countertop surface
- ★ 120V, 1500W, 12.5 Amps, NEMA 5-15P
