

Full Size Food Warmer

Patriot's full size food warmer is constructed with a stainless steel housing for excellent durability. The interior well is constructed of 20 gauge 18/8 stainless steel with a 10" x 20" opening that is 6.5" deep to accommodate all standard size food pans up to 4" deep. The dual element design provides efficient and even heat distribution. This item maintains food temperature at HACCP standards of 140°F-145°F.
